

BUỔI 5

Update Header:

```
frontend > src > components > Header.jsx > Header > linkStyle
1  import { NavLink } from 'react-router-dom';
2
3  const Header = ({ title }) => {
4    const navItems = [
5      { label: 'Home', to: '/' },
6      { label: 'Products', to: '/products' },
7      { label: 'Cart', to: '/cart' },
8      { label: 'Login', to: '/login' },
9    ];
10
11   const linkStyle = ({ isActive }) => ({
12     marginRight: '16px',
13     textDecoration: 'none',
14     color: isActive ? '#1976d2' : '#555',
15     fontWeight: isActive ? 'bold' : 'normal',
16     padding: '8px 12px',
17     borderRadius: '4px',
18     backgroundColor: isActive ? '#e3f2fd' : 'transparent',
19   });
20
21   return (
22     <header style={{ padding: '16px 24px', borderBottom: '1px solid #ddd', display: 'flex', align-items: center, justify-content: space-between; }}>
23       <h1 style={{ margin: 0, color: '#333' }}>{title}</h1>
24       <nav>
25         {navItems.map((item) => (
26           <NavLink key={item.to} to={item.to} style={linkStyle}>
27             {item.label}
28           </NavLink>

```

ProductCard.jsx:

```
1  import { Link } from 'react-router-dom';
2
3  const ProductCard = ({ name, price, category, imageUrl, description }) => {
4    // Tính năng nâng cao: Hiện badge Premium nếu giá > 50
5    const isPremium = price > 50;
6
7    // Tính năng nâng cao: Cắt ngắn mô tả nếu quá dài
8    const shortenedDescription = description.length > 80
9      ? description.substring(0, 80) + '...'
10     : description;
```

ProductDetailPage.jsx:

```
frontend > src > pages > ProductDetailPage.jsx > ProductDetailPage
1  import { useEffect, useState } from 'react';
2  import { useParams, Link } from 'react-router-dom';
3  import axios from 'axios';
4
5  const ProductDetailPage = () => {
6    const { id } = useParams();
7    const [product, setProduct] = useState(null);
8    const [loading, setLoading] = useState(true);
9    const [error, setError] = useState('');
10
11    useEffect(() => {
12      const fetchProduct = async () => {
13        try {
14          const res = await axios.get(`https://fakestoreapi.com/products/${id}`);
15          const item = res.data;
16          const mapped = { id: item.id, name: item.title, price: item.price, category
17            setProduct(mapped);
18          } catch (err) {
19            setError('Failed to load product details.');
```

App.jsx:

```
import { Routes, Route } from 'react-router-dom';
import Header from './components/Header';
import Banner from './components/Banner';
import ProductPage from './pages/ProductPage';
import ProductDetailPage from './pages/ProductDetailPage';
import Footer from './components/Footer';

const HomePage = () => (
  <>
    <Banner subtitle="Welcome to our store" buttonText="Shop Now" buttonLink="/products" />
    <section
      style={{
        padding: '40px 24px',
        textAlign: 'center',
        backgroundColor: 'white',
        margin: '20px',
        borderRadius: '8px',
      }}
    >
      <h2>Welcome to ShopHub</h2>
      <p style={{ color: 'gray', marginTop: '12px' }}>
        Use the navigation bar to browse products, manage your cart, and log in.
      </p>
    </section>
  </>
);
```
